Big Sky Country

Most people head to Montana for a western experience culminating in horseback riding and living a cowboy existence. Not so at the Feathered Pipe Ranch, as this is a sanctuary where east meets west. Established in 1975, it has been teaching and holding retreats ever since and is still going strong. Set in beautiful hilly country overlooking a lake, this is an ideal place to relax, unwind, and forget about the daily humdrum existence. They have a lot going on at the Feathered Pipe Ranch, Montana USA. For more information go to www.featheredpipe.com.
